

Skiaro x Industry Collaboration

Building Industry-Ready Talent Through Structured
Engagement

Industry expert-led training | Mentorship | Case-based learning | Talent pipeline visibility

ISO 9001:2015 Certified

Why Collaborate with Skiaro

-  The biotech, pharma, and advanced therapy sectors face a growing gap between academic learning and real industry readiness.
-  While students are eager to learn, industry expectations around GMP culture, quality mindset, documentation discipline, and professional conduct remain unmet.
-  Skiaro enables industry professionals and organizations to engage meaningfully with emerging talent—not through recruitment promises, but through structured learning, mentorship, and exposure.

What Industry Gains

Early visibility into emerging talent

Contribution to skill development without operational burden

Strong employer branding among students and institutions

A platform to share real-world experience and case insights

Long-term talent ecosystem development

Industry Collaboration Model

Guest lectures and expert talks

Industry expectation and role-awareness sessions

Career guidance and professional mindset mentoring

Case-based discussions (non-confidential)

Sponsorships for certifications and courses

Efficient, Outcome-Oriented Engagement!

Knowledge sharing within agreed scope

No recruitment or placement obligation

Optional branding participation
