

Industry-Aligned Career Readiness Programs for Life Sciences

Industry expert-led training, mentorship, and career readiness programs designed for universities

THE CAREER READINESS GAP IN LIFE SCIENCES

Strong academic curriculum, but little role awareness

- Life science graduates demonstrate a strong subject knowledge
- Surveys suggest that 65-70% graduates have limited understanding of specific industry roles

Students choose careers late or incorrectly

- 40–45% of life-science graduates revise or change their career direction within the first 2–3 years of employment.
- Students feel the need of Industry-aligned concepts for clarity.

Placement outcomes depend heavily on external training

- Life-science graduates rely on external training or certifications to meet entry-level role expectations.
- Industries Expect certain trainings from candidates to consider for the role.

“Universities increasingly require structured, industry-aligned programs that enhance student outcomes without disrupting academic frameworks.”

What Skiaro Delivers Through University Partnerships

Industry expert-led training sessions

Mentorship and career advisory support

Case study-driven practical learning

GMP & quality awareness orientation

Leadership & professional skills development

Skiaro works with universities through clearly defined partnership models—allowing institutions to start small and scale engagement based on outcomes and needs.

Early Exposure to Industry, leadership & GMP Fundamentals

**Awareness of
industry
expectations**

**Leadership and
career building
skills**

**Introduction to
GMP and quality
systems**

How Institutions Leverage This Program

As a value-added program

As a placement-readiness initiative

As a career orientation framework

For NAAC / IQAC documentation

✔ Improved placement readiness

✔ Stronger industry-alignment narrative

✔ Value addition

✔ Enhanced student & parent perception

Collaborate with Skiaro

University Partnership Models

Feature	Foundational	Advanced	Comprehensive
Format	Workshop	Skill Builder Bootcamp	Career Bootcamp
Duration	3-4 Hours (Half-day)	1 Day	2 Days
Best For	First-time colleges, orientation, large batches	Colleges wanting output + engagement	Placement-focused colleges, high impact
Lecture Given by	Skiaro Team	Skiaro team + Mid-level professionals*	Skiaro Team + Industry experts
Student Outcome	Career clarity	Career clarity + Basic Skill based knowledge	Career clarity + Advanced Skill based knowledge + Mentorship + Soft skills
Activities	1 activity	2 activities	Multiple activities (≥4)
Certificates	Participation certificate	Participation Certificate	Course Completion Certificate
Customization Level	No (Same for all Life-science courses)	Medium (Include various streams of life-science)	High (department & courses aligned)

*Based on availability

Institutions may begin with any model and scale engagement based on outcomes and evolving requirements.
