

SKIARO

-The Skill School

Building Careers in Life Sciences

From Degree Holder to Industry-Ready Professional

ISO 9001:2015 Certified

WHY SKIARO?

Degrees offer knowledge, but industry demand skills

- More than 70% of life-science graduates complete their degrees without clear visibility into real career roles.
- As a result, ~40% change jobs or fields within 2–3 years, often due to poor role fit and limited industry exposure.

Industry expects role-ready professionals

- Life-science companies hire for specific roles, not general degrees.
- Freshers are expected to understand workflows, compliance, and role responsibilities from day one.

Skiaro bridges academia and industry

- Skiaro translates academic learning into clear career pathways and role-level understanding.
- We align student strengths with industry expectations, and help learners choose the right path before costly missteps.

If this sounds familiar, you are not alone

Unsure which role fits you?

Not confident about interviews?

Degree but no industry clarity?

Confused about next step?

4 Pillars

Career Pathway Programs

Structured programs that help students identify the right career path based on role reality, personality fit, and industry demand.

Skill & Role-Based Courses

Focused workforce development designed to build role-specific understanding and job-ready skills for pharma, biotech, and life-science careers.

Industry & Compliance Training

Practical exposure to GMP, documentation, and quality systems aligned with real industry expectations.

Mentorship & Career Guidance

Personalized guidance to help learners make informed career decisions and avoid costly missteps early in their journey.

Career Pathway Programs

Designed for all biology graduates

Biology Career Pathways & Certification

Designed for B.Sc / M.Sc / B.Tech / M.Tech

- The program is structured to address the academic background, skill level, and career decision in life-science and allied disciplines.

Personality–Role Fit Based

- Career pathways are identified through individual preferences, working styles, and aptitudes to ensure alignment with real-world role requirements.

Step-by-Step Career Roadmaps

- Learners are provided with structured, sequential roadmaps outlining the competencies, and exposure for progression into specific industry roles.

Choose your role before the industry chooses it for you

Not sure which path fits you? Skiaro helps you decide

Roles

Quality Assurance (QA)

Regulatory Affairs

Quality Control (QC)

Clinical Research

Manufacturing / ATMP

Bioinformatics

Before Skiaro → After Skiaro

Before	After
 <p>Confused about roles</p>	 <p>Clear career pathway</p>
 <p>Unsure where to start</p>	 <p>Structured action plan</p>
 <p>Degree without direction</p>	 <p>Stronger industry readiness</p>

Flagship Programs..

Skiaro's Flagship Programs are introduced as a special launch privilege, the Flagship Programs are available for a limited time with intentionally restricted cohort sizes. This selective approach ensures deeper engagement, focused mentorship, and a high-caliber learning environment — ultimately supporting stronger outcomes for every participant.

Flagship Foundation Program.

A structured introduction to domains including GMP, Pharma, Quality management system and ATMPs

- GMP – Introduction to Quality
- Introduction to Pharma & Regulatory
- Introduction to Quality Management Systems
- Introduction to Advanced Therapies

Flagship Comprehensive Program.

A focused deep dive into industry practice of GMP, Pharma & Regulatory, Quality management systems, ATMPs & CGTs

- GMP Essentials – Industry Practice & Compliance
- Pharma & Regulatory Essentials – Industry Readiness
- Quality Management Systems – Essentials
- Advanced Therapies – Industry Context

Career Accelerator programs

Career Clarity Pathway

- Flagship Foundation Program
- Interview Readiness
- Resume Optimization
- Mentorship

Career Readiness Pathway

- Flagship comprehensive Program
- Interview Readiness
- Resume Strategy
- Leadership Skill Development
- Mentorship

Industry & Compliance Readiness

GMP & GxP fundamentals

Documentation & SOP understanding

Audit & inspection awareness

Quality mindset training

Mentorship & Career Guidance

1:1 career guidance sessions

Career transition advice

Certification & course selection guidance

Resume review and preparation

Interview Readiness and mentorships

What Makes Skiaro Different?

- ✗ Generic theory ✓ Industry-reality driven
- ✗ One-size-fits-all ✓ Personality-based guidance
- ✗ Random syllabus ✓ Structured roadmaps

Students (final year / freshers)

Early professionals (0–3 yrs)

Colleges & universities

Training & placement cells

Certification & Recognition

Skiaro Stands out..

We provide career guidance and Industry aligned training through experienced industry personnel.

ISO 9001:2015 certified

Valued certifications through industry collaborations
